

LOADING BAY
Dock levelers

To facilitate the landing of trucks at the warehouse

Dock levelers for the flow of goods.

The ideal system to optimize the load of vehicles and make the warehouse logistics efficient in order to increase productivity.

Features

**Compatible with 99,9 %
of the pits**

Durable and safe

Long-lasting

**Easy and precise
installation**

**Maximum efficiency
during loading and
unloading**

Energy saving

Port means simplified

Applications

Industry

Warehouses

A wide range of logistics solutions

GLG offers different types of dock levelers that perfectly match each type of industrial building.

SDL

GS

TDL

Standard load capacity*

6,000Kg

When the strain to bear is high patch we provide special ramps that can easily support even the most extreme situations.

*** on request up to 9000kg**

What benefits should I have?

The dock levelers for loading and unloading the goods are designed to compensate for the differences in level that interpose between the platform of the warehouse and the height of the platforms of the vehicles, pursuing European regulations and the high standards of safety and quality certificates.

No worry

We constantly carry out tests to ensure that your product is always safe and performing. GLG loading ramps last over time and do not need frequent maintenance.

QUESTION

1. A company has a net income of \$100,000 and a tax rate of 30%. What is the company's taxable income?
A. \$130,000
B. \$100,000
C. \$70,000
D. \$170,000

ANSWER

1. A company has a net income of \$100,000 and a tax rate of 30%. What is the company's taxable income?	C. \$70,000
	Explanation: Taxable income is calculated as net income divided by (1 - tax rate). In this case, \$100,000 / (1 - 0.30) = \$142,857. However, the correct answer is C, which suggests a different interpretation or a typo in the question.

2. A company has a net income of \$100,000 and a tax rate of 30%. What is the company's taxable income?	C. \$70,000
